Duck Lake Regional Interpretive Centre

Experience the detailed and moving art of Melfort artist Carla Tyacke. Utilizing her own technique of blending with an HB pencil and a white eraser, Carla brings her subjects to life with incredible detail and photographic realism.

Being proud of her country life and love of animals, especially farm animals, she portrays what she has grown to know and love, in her drawings and paintings.

Each acrylic painting gives a sense of beauty and originality with the bright colors, texture, shadows and light.

Join us at the Duck Lake Regional Interpretive Centre to see and experience Saskatchewan rural life through Carla's art.
